# Underground UK House Label Owner Drops Showcase Album in Sweden

Recognized UK House label Beartone Records shows off on the Swedish Clubstream Mix label with a DJ mixed compilation by Beartone label-head Bearface.

The Sweden-based Clubstream Mix label now releases the first full length DJ mix compilation from UK DJ and producer Bearface (in picture). The tracks are carefully selected from Bearface's Beartone Records and are released unmixed as well as in a crisp one hour DJ mixset that moves seamlessly through the tracklist from classic house to tribal and tech-house.

*Bearface, also known as Panasa from Afrobeat duo Bana Kuba, initially gained recognition via DJ superstar Roger Sanchez's Stealth label. Defected Records and Vendetta followed suit, and today he is sought after for his productions and remixes.*

It was during the dance music industry event Amsterdam Dance Event in October 2013 that Beartone Records founder *Bearface* met with *Mikael Arthursson* and *Håkan Ludvigson* from Substream Music Group; West Sweden's leading label group for electronic music.

*- We met Raj (Bearface) by chance in Amsterdam and he played a couple of tracks for us and I said "this is the sort of thing we should be doing". It took 6 months, the album came out beautifully, and I'm already looking forward to the next one! – Håkan @ Substream*

The release, titled "Bearface In The Stream Vol. 1" is released on Clubstream Mix and is available

from on all major download networks, including iTunes, Spotify and Beatport. Promos for review can be requested from Substream. Contact information below.
